PROFILE

Regional PMO and commercial-operations leader with **10+ years on e-commerce and tech platforms** — foodpanda (Delivery Hero), JD Central, Reckitt and GoWabi — **leading large teams since age 27**. My career runs on programs delivered end to end: built JD Central's **Commercial PMO** reporting backbone, **solo-executed its 12.12 mega-campaign**, stood up foodpanda's vendor SOPs and deal frameworks, and launched GoWabi's first in-app monetization products. Hands-on in **SQL and Python/pandas**, Agile delivery in JIRA and Confluence, recently trained in Scrum. Led a team of 10 to **#1 in APAC**, beating **~\$100M/month** targets 13 consecutive months. CFA Level I · summa cum laude in Finance.

WHAT I'M LOOKING FOR NEXT

Not a salary jump — a **community to commit to**. I want a team and a mission worth staying with for the long term, where I can keep building, lead from the front, and grow alongside the people around me.
